

Cut

Medium Duty

Affordable safety gloves, offering superb grip as well as cut and abrasion resistance

- **Advanced protection:** EDGE[®] 48-707 cut and abrasion-resistant gloves provide ANSI cut level A6 and EN 388 ISO cut level F, which afford a very high level of cut protection
- **Heightened grip and dexterity:** Owing to their palm PU coating, these protective gloves combine good grip as well as dexterity, and are suitable for dry or slightly oily environments
- **Reduced risks:** In addition, EDGE[®] 48-707 ESD gloves meet the requirements for electrostatic dissipative materials as per EN 1149
- **Added features:** These grey hand protection gloves also possess a seamless liner and knitted wrist, which deliver a secure fit for use in applications that require high cut resistance

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Aeronautics
- Assembly line
- Assembling metal parts and components
- Handling sharp or irregular metal pieces
- Molding
- Plastic injections

Key Features

- **Very high cut protection:** For robust mechanical protection gloves
- **Good grip and dexterity:** Secure handling for precision tasks
- **Anti-static design:** Reduced risk of electrostatic shock

Performance Standards & Regulatory Compliance
